COMMENTS:

Brothers and Sisters – These conventions are a great opportunity to network and be proud you are part of a union. I ask for your vote because for me in going you will give me the wonderful opportunity to represent you to raise and speak up on issues that matter to the membership and the ever changing labor movement. We are a diverse union and I have always stepped up to protect the rights of all! Unifor National does a great job at these events to have inclusiveness and I have represented all the equity groups by attending caucus's/roundtable discussions by being a voice and ally.

Thank you for taking the time to read my profile and also much appreciation and thanks for your support!

In Solidarity
