COMMENTS: I started Full time with the company in 2012, and like many I have been on the 13a pay scale ever since. I became the unit chair for Yarmouth in 2013 and have gotten more involved in the union ever since. I am still the unit chair for the Yarmouth area as well as shop steward and the young worker rep on the human rights committee. My goal is to be able to be a voice for everyone including the newer employees who often feel forgotten when it comes to contract talks, so that all members can feel like we truly are a union for everyone. Thank you for your time and consideration in this opportunity to be your voice.
